

W04 Introduction

To-Do Date: May 13 at 10:59pm

Overview

- **Tasks:** Learn about using CSS to improve the styling of our site.
- **Purpose:** This week's focus will be in improving our CSS coding skills.

Objectives

- Become familiar with the basic vocabulary for CSS
- Learn how to apply CSS to a website
- Learn about the role of Backend Web Developer

[Notes]

Remember that CSS is less forgiving than HTML about errors. If you are making change to your CSS and not seeing a resulting change in your web page...[Validate!](#) ➡
