

Learning More: Backend Development

Activity Directions

Estimated time: 15 minutes

One of the goals of this course is to introduce you to many of the different career options available in Web Design and Development. We learned about Frontend developers last week. Now we will learn about Backend Development.

Watch this introduction to this career by Treehouse. It introduces the type of work you would be doing, along with the skills you would need to succeed. It will also review many of the concepts we have already been learning in the course.

(10:25 mins, [What You Need to Know to be a Back-End Developer in 2018](#))
