

# W06 Introduction

To-Do Date: May 27 at 10:59pm

## Overview

- **Tasks:** Learn about CSS Layout methods and CSS Grid. Make sure to complete the preparation material and quiz this week *before* attempting the exercises!
- **Purpose:** You will complete several exercises to help you become proficient with CSS Grid. We are taking a break from the rafting site this week to learn and practice with Grid and Layout. We are not finishing the home page or designing other pages in that site yet.

## Objectives

- Learn how to implement a web page layout with CSS Grid
- We will also be introduced to the role of a Search Engine Optimization (SEO) Specialist

## [Notes]

This is the last week of Preparation Materials and Preparation Quizzes. Use any available time for this class in future weeks for your websites.
